STATEWIDE SUMMARY

Utah's fiscal year (FY) 2015 operating and capital budget is \$13.5 billion from all sources. That's a 1.2 percent increase over revised FY 2014 estimates of \$13.4 billion and 5.2 percent more than the original FY 2014 budget of \$12.9 billion. Nearly all of the FY 2014 difference is from higher than expected federal funds and beginning nonlapsing balances.

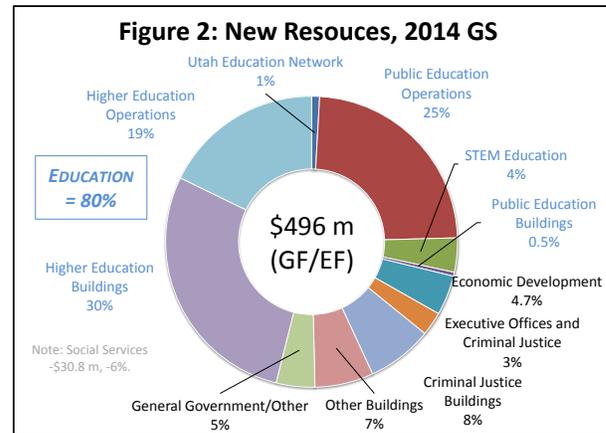

Economists expect that the state will collect \$5.5 billion in discretionary General and Education Fund revenue in FY 2015. To that revenue legislators added \$220 million in prior year reserves and \$100 million in program savings and fund transfers, balancing the state's FY 2015 General and Education Fund budget at \$5.8 billion, up 7.2 percent.¹ They decreased General and Education Fund (GF/EF) appropriations slightly in FY 2014 - by \$64 million, down 1.2 percent largely due to Medicaid savings.

Tables showing statewide revenue and appropriations detail begin on page 7 of this report.

Legislators had at their disposal \$253 million in new ongoing revenue growth, \$144 million in one-time collections, and around \$100 million in other sources (see Table 9). They allocated this new money as shown in Figure 2.

Education garnered the largest share of new money in the 2014 General Session. Eighty percent of the \$496 million appropriated went in one form or another to support public and higher education.

Education increases include:

- \$61.2 million for anticipated additional public schools students;
- \$62.5 million for a 2.5 percent increase in the value of the Weighted Pupil Unit;
- \$53 million for state funding equity at colleges and universities;
- \$115 million for new facilities at Weber State University, Utah State University, Southwest ATC, Snow College, the University of Utah, and Dixie College; and,
- \$20 million in new funding for the Science, Technology, Engineering, and Math (STEM) learning initiative in the Governor's Office of Economic Development.

Other significant General and Education Fund increases include:

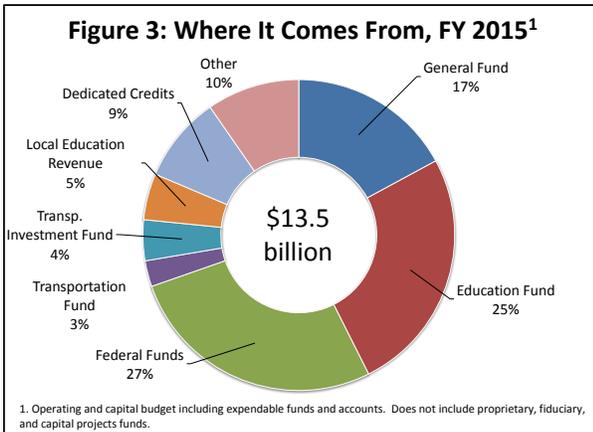

- \$58.5 million for deferred building maintenance;
- \$36 million for expansion of the state prison at Gunnison;
- \$5.2 million for contracts with local jails to house state inmates;
- \$3 million for new state troopers, trooper raises, and overtime.

Air quality programs received \$2.5 million in GF/EF appropriations, \$1 million from a restricted account, and \$2 million in tax breaks. Social service programs contributed \$30.8 million GF/EF to other areas - largely due to lower than expected Medicaid costs.

¹ See Utah's balanced budget in detail on table 11.

REVENUE

The state’s main sources of finance are the sales tax supported General Fund and the income tax based Education Fund. Other major sources are federal funds, the gas tax driven Transportation Fund, sales tax devoted to Transportation; local revenue for education; and dedicated credits (fee for service revenue). Figure 3 shows how these sources constitute the total operating and capital budget.

Utah employs a consensus revenue estimating process for the General and Education Funds, as well as the Transportation Fund and Federal Mineral Lease money. Economists from both the Legislative and the Executive branches of government agree upon a single set of revenue targets. Both branches then use those targets for budgeting. Each December and February the consensus team releases updated estimates for the current year and projections for the next year. Final targets - including changes associated with legislation - come out in May. The Legislature's Executive Appropriations Committee (EAC) typically adopts these estimates.

On February 28, 2014, EAC adopted consensus ongoing FY 2015 General and Education Fund revenue estimates of \$5.5 billion. That's 4.9 percent more than the revised FY 2014 estimate of \$5.3 billion also adopted by EAC. Changes due to legislation passed in the 2014 General Session are expected to reduce the

FY 2015 estimate by around \$5 million (0.1 percent). FY 2014 legislative changes are negligible.²

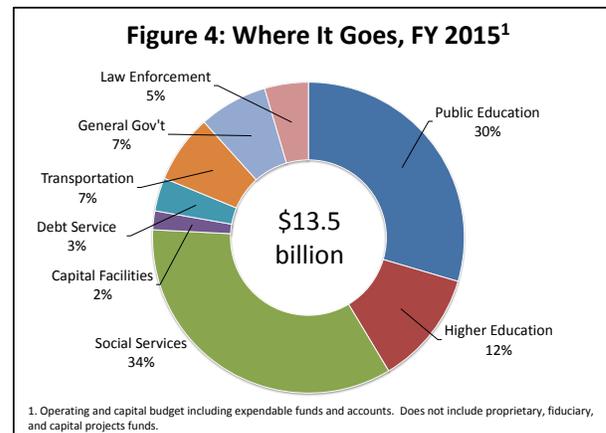

Legislators identified other one-time sources that they added to revenue growth. They returned to the General and Education Funds nearly \$100 million from nonlapsing program balances and fund balances in FY 2015. Appropriated transfers and other sources totaled \$23.6 million for FY 2014.

Altogether, legislators had at their disposal \$5.6 billion in FY 2014 and \$5.8 billion in FY 2015.

See Tables 7 through 11 at the end of this chapter for more detail on revenue. Table 8 provides specifics about legislative changes impacting revenue, while Table 9 shows one-time sources used to balance the budget.

APPROPRIATIONS

Altogether, the Legislature approved \$15.2 billion in appropriations from all sources for all purposes in FY 2015. As shown on Table 1, that includes account deposits, loan funds and certain other enterprise funds, internal service funds, fiduciary funds, and capital projects appropriations. Adjusting for those appropriations, Utah’s operating and capital budget – including appropriations to expendable funds and accounts - is \$13.5 billion in FY 2015 (see table 2).

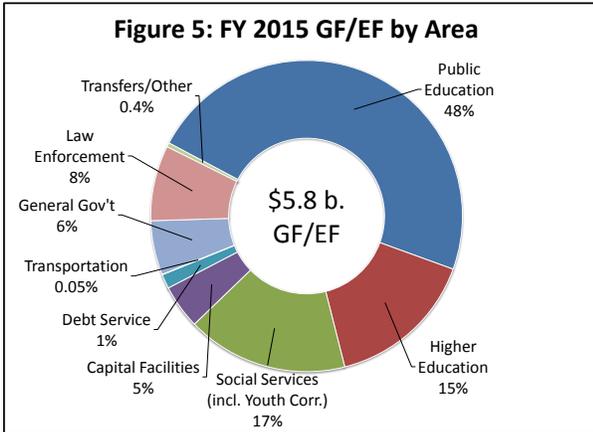

Of the total FY 2015 amount, legislators appropriated \$5.8 billion from the General Fund and Education Fund, an increase of 7.2 percent over the revised

² Table 7 shows more about revenue estimates and Table 8 lists legislative changes impacting revenue.

FY 2014 budget. Supplemental FY 2014 appropriations from the General and Education funds declined by \$64.1 million. This decrease is largely due to the previously mentioned overestimate of Medicaid costs.

Figure 4 (previous page) displays total funding by area of expenditure. Figure 5 shows the same but for General and Education Fund spending only. Detailed presentations of the budget can be found in Tables 1 through 6 at the end of this chapter.

RESERVE FUNDS

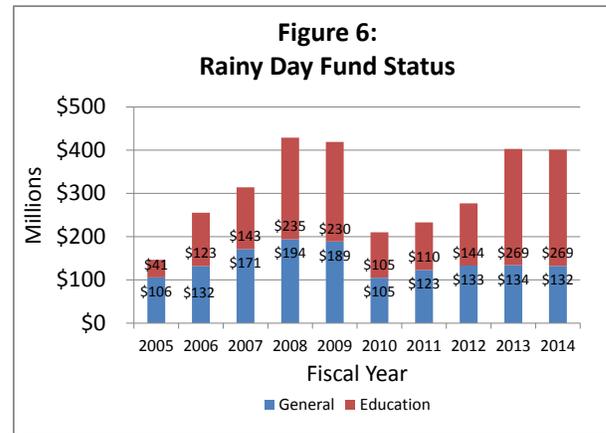

Under statutory deposit rules, the State Division of Finance deposits as much as 50 percent of any year-end revenue surplus into Utah's reserve accounts.

An FY 2013 Education Fund revenue surplus bolstered the Education Budget Reserve Account by \$119.5 million. That's on top of \$5.5 million deposited by the Legislature via appropriations.

Utah had no FY 2013 General Fund revenue surplus - thus no automatic deposits to the General Fund Budget Reserve Account. Legislators did appropriate \$1.1 million to the account in FY 2013.

In a July 2013 Special Session appropriators used \$3.0 million from the General Fund Budget Reserve Account to pay the Deep Creek Case settlement agreement. They repaid the account \$1 million during the 2014 General Session.

Combined reserves in both accounts are expected to total \$401 million at the end of FY 2014 (6.9 percent of FY 2015 GF/EF appropriations).

STRUCTURAL BALANCE

Coming into the 2014 General Session, before accounting for growth in either costs or revenues, legislators faced a small \$2 million shortfall (0.04 percent of FY 2014 GF/EF appropriations). This was associated with the cost of a new defined contribution benefits program for state employees. The first \$2 million in ongoing revenue growth went to eliminate this structural imbalance.

At the close of the 2014 General Session, Utah had a \$24.6 million structural imbalance (0.4 percent of FY 2015 GF/EF appropriations). More than half of this (\$13.3 million) comes from a deliberate accounting change that will begin to set-aside money to pay the cost of employee annual leave as that leave accrues (**S.B. 269, "Annual Leave Program II for State Employees"**). The change will recognize this previously unfunded liability beginning in FY 2016. The remainder of the imbalance covers the delayed fiscal impact of an increase in tourism marketing earmarks (**H.B. 34, "Tourism Marketing Performance Account Amendments"**).

DEBT

The Legislature returned to "pay as you go" funding for state buildings and roads during the 2014 General Session. It authorized no new general obligation bonds. Legislators did pass **H.B. 9, "Revenue Bond and Capital Facilities Amendments,"** that eliminates \$10.5 million in revenue bond authorization for the Utah State Fair Park, but extends \$77.2 million in new revenue bond authority to the University of Utah.

EMPLOYEE COMPENSATION

Appropriators provided funding for increased employee salaries and benefit costs as follows:

State Employees:

- \$15.2 million from all sources, \$8.3 million GF/EF, for the equivalent of a 1.25 percent salary increase;
- \$15.2 million from all sources, \$8.5 million GF/EF, for projected retirement cost increases;
- \$4.4 million from all sources, \$2.4 million GF/EF, for health insurance cost increases; and
- \$2 million from all sources, \$1 million GF/EF, for other increases like Worker's Compensation and Attorneys General pay.

Higher Education:

- \$12.5 million from all sources, \$9.6 million GF/EF, for the equivalent of a 1.25 percent salary increase;
- \$2.9 million from all sources, \$2.3 million GF/EF, for projected retirement cost increases; and
- \$2.8 million from all sources, \$2.2 million GF/EF, for health insurance cost increases.

Public Education: The Legislature does not set pay amounts for school teachers or other school district and charter school employees. Local education agencies and their employees negotiate those compensation changes. As mentioned earlier, legislators provided \$62.5 million for a 2.5 percent increase in the value of the Weighted Pupil Unit. That funding is for public education cost inflation generally - potentially including compensation.

BILLS AFFECTING REVENUE

- **H.B. 74, "Energy Efficient Vehicle Tax Credits"** extends tax credits for electric, natural gas, and other alternative fuel vehicles resulting in a \$1.3 million one-time annual revenue loss.
- **H.B. 140, "Tax Credit Amendments"** enacts a new credit for businesses that employ homeless individuals. Such businesses can receive a refundable tax credit of up to \$2,000 under this three-year pilot project. Revenue loss from this change is estimated at \$100,000 per year.
- **S.B. 65, "Sales and Use Tax Exemption Modifications"** reduces the tax liability of manufacturers and related businesses by \$347,000 for purchases of certain parts, repairs, and products used in specific manufacturing processes and related activities.
- **S.B. 224, "Renewable Energy Tax Credit Amendments"** prospectively extends a tax credit for power, heating, and cooling systems that use renewable energy. The credit may forgo an estimated tax liability of about \$637,000 per year beginning in FY 2016.

SUBCOMMITTEE OVERVIEW

The Executive Offices and Criminal Justice (EOCJ) Appropriations Subcommittee reviews and recommends budgets for executive branch elected offices and certain agencies that comprise the State's criminal and civil justice system:

- Governor;
- State Auditor;
- State Treasurer;
- Attorney General;
- State Courts (Judicial Branch);
- Department of Public Safety;
- Department of Corrections;

- Division of Juvenile Justice Services.

The Legislature increased total General/Education Funds to EOCJ by 4.3 percent from its FY 2013 Actual to FY 2014 Revised budgets, and increased these funds by 2.7 percent from its FY 2014 Revised to FY 2015 Appropriated budgets.

Largely due to the timing of sizeable, expected one-time expenditures, and federal funds increases, total funding for this subcommittee increased from FY 2013 Actual to FY 2014 Revised by 14.1 percent, and decreased by 5.0 percent from FY 2014 Revised to FY 2015 Appropriated budgets.

The State Auditor is the elected, independent auditor of the State. The Auditor ensures the financial integrity and accountability of State and local governments.

Beginning FY 2014, budgeting for the Office of the State Auditor entails one program. With **S.B. 2, "New Fiscal Year Supplemental Appropriations Act,"** (2013 General Session) the Legislature consolidated the office's three programs -- State Auditor, Auditing, and State and Local Government into one program entitled State Auditor.

STATE TREASURER

The State Treasurer is responsible for management of all State funds. The office controls the receipt and deposit of money, manages banking relationships, invests all funds and provides liquidity for all State disbursements.

The Legislature approved the following items in the State Treasurer's budget during the 2014 General Session:

- Unclaimed property marketing -- \$50,000 restricted fund ongoing and \$100,000 restricted fund one-time.

ATTORNEY GENERAL

The Attorney General (AG) is the constitutional legal adviser of State officers. The office prosecutes and defends all cases in which the State or a State agency is a party. The agency's five line items are:

- Attorney General (Main Line Item);
- Contract Attorneys;

- Prosecution Council; and
- Domestic Violence.

SUBCOMMITTEE OVERVIEW

The Higher Education (HED) Appropriations Subcommittee reviews and approves budgets for public, post-secondary education institutions in the State. Total appropriations for agencies within this subcommittee increased 6.4 percent from FY 2014 Revised to FY 2015. Looking at State tax funds (General Fund and Education Fund), Higher Education’s budget increased 11.6 percent from FY 2014 to FY 2015.

UTAH SYSTEM OF HIGHER EDUCATION

The Utah System of Higher Education (USHE) includes the eight credit-granting colleges and universities and the Utah College of Applied Technology (UCAT), a non-credit granting institution that provides career and technical education at eight different locations statewide. Instructional and related expenses comprise the majority of the expenditures for the Utah System of Higher Education.

During the 2014 General Session, legislators approved the following major funding initiatives:

- \$50.0 million to improve funding equity among USHE institutions. An independent study determined that USHE institutions should be less reliant on tuition funding and receive additional State support. The funding distribution is as follows:
 - Utah State University Regional Campuses -- \$5,617,000;
 - Weber State University -- \$4,447,700;

- Utah Valley University -- \$21,110,000;
- Dixie State University -- \$3,249,000; and
- Salt Lake Community College -- \$15,576,300.
- \$7.0 million for all eight USHE institutions and the State Board of Regents for distinctive priorities at each entity, based in its mission. The funding distribution is as follows:
 - University of Utah -- \$2,120,900;
 - Utah State University -- \$1,445,800;
 - Weber State University -- \$726,300;
 - Southern Utah University -- \$321,900;
 - Utah Valley University -- \$856,400;
 - Snow College -- \$189,100;
 - Dixie State University -- \$278,900;
 - Salt Lake Community College -- \$818,200; and
 - State Board of Regents -- \$242,500.

In addition to the above-mentioned system-wide initiatives, there are several institution-specific appropriations, as follows:

- University of Utah:
 - College of Nursing -- \$150,000 one-time.
- Utah State University:
 - Veterinary Medicine Program -- \$1.5 million;
 - Cooperative Extension -- \$500,000 one-time;
 - Graduate Programs -- \$500,000 ongoing and \$500,000 one-time;
 - Sound Beginnings Program -- \$75,000;
 - ASSERT -- \$75,000; and
 - Tooele Regional Campus -- \$30,000.
- Southern Utah University:
 - Shakespeare Festival -- \$50,000 one-time
- Dixie State University:
 - University status -- \$2.0 million; and
 - Computer Crime Lab -- \$250,000.
- State Board of Regents:
 - Regents’ Scholarship -- \$3.0 million one-time;
 - New Century Scholarship -- \$500,000 one-time;
 - Performance-Based Funding -- \$1.5 million one-time; and

- College Readiness Initiative -- \$1.0 million.

The subcommittee approved the reallocation of funding from the University of Utah to the other seven institutions from last year's mission-based funding levels, as shown below:

- University of Utah -- (\$1,341,300);
- Utah State University -- \$425,500;
- Weber State University -- \$208,800;
- Southern Utah University -- \$93,100;
- Utah Valley University -- \$241,500;
- Snow College -- \$55,500;
- Dixie State University -- \$78,900; and
- Salt Lake Community College -- \$238,000.

UCAT has eight regional campuses located throughout the State to provide career and technical education. It strives to do so efficiently and effectively through collaborative partnerships between the educational systems, business, and industry. The campuses offer open-entry/open-exit, competency-based training for secondary and post-secondary students.

The Legislature appropriated \$3.0 million to UCAT to increase capacity for career and technical education. Each campus has different priorities for their service region, but most campuses will expand existing programs or create new programs with this appropriation.

Below are the amounts each campus received:

- Bridgerland -- \$441,000;
- Davis -- \$488,200;
- Dixie -- \$294,000;
- Mountainland -- \$423,200;
- Ogden/Weber -- \$457,600;
- Southwest -- \$292,500;
- Tooele -- \$272,200; and
- Uintah Basin -- \$331,300.

The Legislature appropriated \$3.0 million to UCAT for campus equity to ensure that each service region is adequately funded. The funding was determined by population and current service levels.

Below are the amounts each campus received:

- Bridgerland -- \$151,900;
- Davis -- \$502,800;
- Dixie -- \$311,700;
- Mountainland -- \$1,617,200;
- Ogden/Weber -- \$213,900;
- Southwest -- \$66,500;
- Tooele -- \$86,400; and
- Uintah Basin -- \$49,600.

In addition to the above-mentioned funding items, the Legislature funded the following to UCAT Administration:

- Custom Fit -- \$500,000;
- Scholarship Fund for Students with Intellectual Disabilities -- \$100,000 one-time; and
- Messaging and Marketing Fund -- \$200,000 one-time.

Several years ago, the Legislature approved a new policy for State-funded buildings, where the ongoing Operations and Maintenance (O & M) appropriation for a new building was funded at the time the building was approved. The ongoing funding is offset with one-time reductions until the building is completed and ready for occupancy. For FY 2015, the Legislature approved four new facilities - two new USU buildings, one at the Brigham City Regional Campus and one at USU Eastern in Price; a new science building at Weber State University; and a new building for the Southwest Applied Technology College (see Infrastructure and General Government chapter). The O & M associated with these four buildings includes:

- USU - Brigham City -- \$365,400;
- USU - Eastern -- \$328,900;
- WSU - Science Building -- \$711,000; and
- SWATC - Allied Health and Technology Building - \$587,500.

The approved one-time O & M reductions for previously-approved buildings that are still in the construction phase total \$63,300 in FY 2014 and \$898,300 in FY 2015 for the following two buildings:

- USU Business Building -- \$63,300 in FY 2014 and \$66,400 in FY 2015 and
- UVU Classroom Building -- \$831,900.

The 2014 Legislature approved the following bills:

S.B. 16, “Veterans’ Tuition Gap Program,” provides tuition assistance to qualified veterans who have maximized their federal benefits. The Legislature appropriated \$125,000 ongoing plus \$75,000 one-time.

S.B. 38, “Snow College Concurrent Education Program,” requires Snow College to provide concurrent enrollment courses to high school students to apply toward an Associate degree. The Legislature provided \$1.3 million for this program.

S.B. 34, “Statewide Data Alliance and Utah Futures,” consolidates Utah Futures and a statewide data systems from public education, higher education, and workforce data. In addition to appropriations to the Utah Education Network and the State Office of Education, higher education ongoing appropriations of \$800,000 were made as follows:

- University of Utah -- \$310,000;
- State Board of Regents -- \$245,000; and
- Utah College of Applied Technology -- \$245,000.

S.B. 104, “Improvement of Reading Instruction,” the Legislature provided \$100,000 to the University of Utah to provide instruction in the use of technology and blended learning to teachers.

H.B. 155, “Utah Communication Agency Network and Utah 911 Committee Amendments,” replaces the telephone charge dedicated to the Poison Control Center (dedicated credit revenue) with a General Fund appropriation of \$2.1 million.

H.B. 92, “Utah Education and Telehealth Network,” moves the Utah Telehealth Network and its funding of \$459,600 from the University of Utah to the Utah Education Network.

The Legislature approved the following intent language to increase Higher Education’s accountability for State funding:

The Legislature intends that [all USHE institutions] report on the following performance measures: (1) graduation rates (100 percent, 150 percent, and 200 percent) by cohort, with comparisons to national averages; (2) transfer and retention rate, by cohort; (3) job placement rates following graduation, by classification of instructional program (CIP) where feasible; (4) cost per degree as defined by CIP, with comparisons to national averages, if available; (5) percentage of students enrolling in, and successfully completing, a developmental mathematics course who immediately or concurrently enroll in college level math (1030 or higher); and [for the University of Utah and Utah State University] (6) the amount of grant money applied for and received and the number of research/outreach initiatives funded by non-state-funded grants. The Legislature intends that this information be available to the Higher Education Appropriations Subcommittee by January 15, 2015. (H.B. 2, Items 85, 86, 95-100)

The Legislature intends that State Board of Regents make earnings and other pertinent data from Utah Data Alliance available to students, parents, teachers, counselors, and other interested parties, subject to the Utah Data Alliance receiving continued funding. (H.B. 2, Item 102)

The Legislature further intends that the State Board of Regents support institutions within the Utah System of Higher Education in compiling, standardizing, and reporting data to the Higher Education Appropriations Subcommittee. (H.B. 2, Item 102)

The Legislature intends that the State Board of Regents explore the feasibility of collecting graduation rates by CIP and report its findings to the Legislature during the 2015 General Session. (H.B. 2, Item 102)

The Legislature intends that [all UCAT campuses] provide year-end performance data for certificate-seeking, occupational upgrade, other post-secondary, and secondary students detailing the number and percentage of: (1) completers (graduate and non-graduate/early-hire completers, where applicable); (2) non-completers, and (3) those who are still enrolled at the end of the fiscal year. The Legislature further intends that [all UCAT campuses] provide average cost per membership hour, average cost per certificate awarded, and average cost per occupational upgrade awarded. (H.B. 2, Item 106-113)

The Legislature intends that the Utah College of Applied Technology provide summary year-end performance data for certificate-seeking, occupational upgrade, other post-secondary, and secondary students detailing the number and percentage of: (1) completers (graduate and non-graduate/early-hire completers, where applicable); (2) non-completers, and (3) those who are still enrolled at the end of the fiscal year. The Legislature further intends that the Utah College of Applied Technology provide summary data detailing average cost per membership hour, average cost per certificate awarded, and average cost per occupational upgrade awarded. (H.B. 2, Item 105)

SUBCOMMITTEE OVERVIEW

The Infrastructure and General Government (IGG) Appropriations Subcommittee reviews and approves budgets for:

- Building construction;
- Highway construction;
- Highway maintenance; and
- Statewide administrative functions.

The total FY 2015 operating and capital budget for the subcommittee is \$1.8 billion, with \$386.8 million coming from General and Education Funds. This represents an increase of 26.1 percent in State funding compared to FY 2014 Revised budgets. One-time increases in the Capital Development and Capital Improvements Budgets account for the majority of increased State funding.

DEPARTMENT OF TRANSPORTATION

The Department of Transportation (DOT) builds and maintains highways. It passes funds for B & C roads, Mineral Lease, and Aeronautics to local governments. Its 12 line items are:

- Support Services;
- Engineering Services;
- Construction Management;
- Transportation Investment Capacity Program;
- Region Management;
- Safe Sidewalks;
- Equipment Management;
- Operations/Maintenance Management;
- Aeronautics;
- B & C Roads;
- Mineral Lease; and

- Share The Road.

Transportation funds will increase by about 0.9 percent in FY 2015. Increases to sales tax revenues for transportation projects and debt service are estimated to increase by about \$17.7 million in FY 2015.

During 2014, DOT will complete projects funded by the Legislature totaling about \$800 million. The larger projects include:

- Build express lanes and replace multiple bridges and interchanges on I-15 in Davis County from North Salt Lake to Farmington;
- Reconstruct S.R. 201 from 5600 West to 9450 West in Salt Lake County;
- Reconstruct I-80 from Silver Creek Junction to Wanship in Summit County;
- Reconfigure interchanges on I-15 at Cedar City and Brigham City;
- Construct a new interchange on Bangerter Highway at Redwood Road; and
- Resurface I-80 in Parley's Canyon.

Funding initiatives approved during the 2014 General Session included the following:

- IT Expansion -- \$1.9 million;
- Maintenance Budget -- \$4.0 million;
- Local Airport Construction -- \$5.0 million;
- Construction Management Reallocation -- (\$1,470,000);
- American Fork Canyon Studies -- \$100,000;
- Mountain Cog Rail Accord Study -- \$3.0 million; and
- Wendover Airfield Museum -- \$50,000.

Legislators passed **S.B. 22, "Workforce Services Job Listing Amendments,"** which amends UCA 35A-2-203 and 63G-6a-402 and provides contractor information to the Department of Workforce Services; and **S.B. 32, "State Highway System Amendments,"** which amends UCA 72-4-121 and adjusts the highway lane mile ownership of the State.

The Legislature included the following intent language for DOT:

There is appropriated to the Department of Transportation from the Transportation Fund, not otherwise appropriated, a sum sufficient, but not more than the surplus of the Transportation Fund, to be used by the Department for the construction, rehabilitation, and preservation of State highways in Utah. It is the intent of the Legislature that the appropriation fund first, a maximum participation with the federal government for the construction of federally designated highways, as provided by law, and last the construction of State highways, as funding permits. It is also the intent of the Legislature that the FTEs for field crews may be adjusted to accommodate the increase or decrease in the Federal Construction Program. No portion of the money appropriated by this item shall be used either directly or indirectly to enhance or increase the appropriations otherwise made by this act to the Department of Transportation for other purposes. (H.B. 2, Item 19)

The Legislature intends that any and all collections or cash income from the sale or salvage of land and buildings are to be lapsed to the Transportation Fund. (H.B. 2, Item 19)

The Legislature intends that the Department of Transportation use maintenance funds previously used on state highways that now qualify for Transportation Investment Funds of 2005 to address maintenance and preservation issues on other state highways. (H.B. 2, Item 19)

It is the intent of the Legislature to effectuate the purposes of Section 63B-18-401(3)(b)(x) for an energy corridor study and environmental review for improvements in the Uintah Basin, that the UDOT continue the direction and funding of the Uintah Basin Transportation study which began in 2014 with \$3 million provided to the Department under Section 72-2-124. (S.B. 3, Item 30)

There is appropriated to the Department of Transportation from the Transportation Fund, not

otherwise appropriated, a sum sufficient, but not more than the surplus of the Transportation Fund, to be used by the Department for the construction, rehabilitation, and preservation of State highways in Utah. It is the intent of the Legislature that the appropriation fund first, a maximum participation with the federal government for the construction of federally designated highways, as provided by law, and last the construction of State highways, as funding permits. No portion of the money appropriated by this item shall be used either directly or indirectly to enhance or increase the appropriations otherwise made by this act to the Department of Transportation for other purposes. (H.B. 2, Item 20)

The Legislature intends that the Division of Aeronautics consider using \$300,000 of the one-time airport construction appropriation for a feasibility study at the Ogden Airport. The Legislature also intends that the one-time appropriation of \$5,000,000 to Airport Construction is non-lapsing. (H.B. 2, Item 22)

The Legislature intends that the funds appropriated from the Transportation Fund for pedestrian safety projects be used specifically to correct pedestrian hazards on State highways. The Legislature also intends that local authorities be encouraged to participate in the construction of pedestrian safety devices. The appropriated funds are to be used according to the criteria set forth in Section 72-8-104, Utah code Annotated, 1953. The funds appropriated for sidewalk construction shall not lapse. If local governments cannot use their allocation of Sidewalk Safety Funds in two years, these funds will be available for other governmental entities which are prepared to use the resources. It is the intent of the Legislature that local participation in the Sidewalk Construction Program is on a 75% state and 25% local match basis. (H.B. 2, Item 23)

It is the intent of the Legislature that the funds appropriated from the Federal Mineral Lease Account shall be used for improvement or reconstruction of highways that have been heavily impacted by energy development. It is the intent of

the Legislature that if private industries engaged in developing the State's natural resources are willing to participate in the cost of the construction of highways leading to their facilities, that local governments consider that highway as a higher priority as they prioritize the use of Mineral Lease Funds received through 59-21-1(4)(c)(i). The funds appropriated for improvement or reconstruction of energy impacted highways is non-lapsing. (H.B. 2, Item 24)

There is appropriated to the Department of Transportation from the Transportation Investment Fund of 2005, not otherwise appropriated, a sum sufficient, but not more than the surplus of the Transportation Investment Fund of 2005, to be used by the Department for the construction, rehabilitation, and preservation of State and Federal highways in Utah. No portion of the money appropriated by this item shall be used either directly or indirectly to enhance or increase the appropriations otherwise made by this act to the Department of Transportation for other purposes. (H.B. 2, Item 25)

CAPITAL AND DEBT SERVICE BUDGET

The Capital Budget presented in this report represents only the cash portion of authorized State-funded expenditures. The Legislature usually funds capital projects with cash and bonds and also authorizes the construction of buildings with non-State funds. Construction frequently takes more than a year, and so extends through two or more appropriation years. Including bond proceeds in appropriated columns would overstate appropriations. Yet, not doing so understates the size of the State's construction program.

The Capital Budget funds:

- New construction;
- Major remodeling;
- Alterations;
- Repairs;
- Improvements;

- Real estate;
- Roofing; and
- Paving projects.

Debt Service consists of interest and principal due on State general obligation and revenue bonds.

Legislators approved the following major funding initiatives:

- Building Projects -- \$310,460,000 total, including State funding of \$165.4 million (see table below);
- Capital Improvements -- \$100,243,600 for alterations and repairs on existing buildings (the appropriation is 1.1 percent of the replacement value of State buildings); and
- Debt Service -- \$11,902,700 reduction to debt service coming mostly from transportation funds to pay for decreased highway bond obligations.

SUBCOMMITTEE OVERVIEW

The Natural Resources, Agriculture, and Environmental Quality Appropriations Subcommittee considers and discusses budgetary issues related to Utah's natural resources, agriculture, and environment. These budget issues often provide the framework for policy decisions for best use and preservation of air, land, and water in Utah.

The subcommittee reviews and approves the budgets for the following agencies:

- Department of Natural Resources (DNR);
- Department of Environmental Quality (DEQ);
- Department of Agriculture and Food (DAF);
- School and Institutional Trust Lands Administration (SITLA);
- Public Lands Policy Coordination Office (PLPCO); and
- Office of Energy Development (OED).

Major budgetary considerations of the subcommittee during the 2014 General Session included air quality, sovereign lands, catastrophic fire prevention, and endangered species.

NATURAL RESOURCES

The Department of Natural Resources (DNR) serves as an umbrella organization, bringing together the following seven divisions of state government that affect the state's natural resources:

- Forestry, Fire and State Lands;

- Oil, Gas and Mining;
- Wildlife Resources;
- Parks and Recreation;
- Utah Geological Survey;
- Water Resources; and
- Water Rights

Mission: To sustain and enhance the quality of life for people today and tomorrow, through the coordinated and balanced stewardship of our natural resources.

DNR ADMINISTRATION

The DNR Administration line item develops, implements, and coordinates the management of Utah's natural resources. The functions within this line item include: Executive Director's Office, Finance, Auditing, Public Affairs, Law Enforcement, and the Lake Commissions.

The Legislature approved the following intent language:

The Legislature intends that the sage grouse appropriation of \$2,000,000 in FY 2015 be used by the Department of Natural Resources to solicit responders and award a contract or contracts, in compliance with the requirements of the Utah Procurement Code, to hire a contractor or contractors for the purpose of delaying a possible sage grouse listing as an endangered species. The Legislature further intends that the contractor or contractors use the funding for the following purposes: (1) legal strategies; (2) educating members of Congress; and (3) engaging the public in the process. The contractor or contractors shall provide written, quarterly progress reports to the Department and to the Natural Resources, Agriculture, and Environment Interim Committee. The Department and the contractor or contractors shall report on or before November 2014 to the Natural Resources, Agriculture, and Environment Interim Committee on the progress and results achieved. (H.B. 2, Item 114)

The Legislature made the following budget changes:

- Davis County Landslide Mitigation -- \$300,000 one-time to be transferred to the City of North Salt Lake to help with mitigation on the Springhill landslide;
- Ogden Bay Waterfowl Management -- \$2.4 million one-time to be transferred to Weber County: \$1.4 million in FY 2014 and \$1 million in FY 2015; and
- Sage Grouse Control -- \$2 million one-time to be used for delaying a possible sage grouse listing as outlined in legislative intent language.

Species Protection

The purpose of the Species Protection line item is to prevent any plant or animal species from being added to the Endangered Species List, and to pursue actions that will allow the delisting of threatened or endangered species in Utah.

The Legislature approved the following intent language:

The Legislature intends that the last \$200,000 of \$500,000 appropriation in FY 2015 for carp removal be met with a one-to-one match by the Utah Lake Commission. (H.B. 2, Item 115)

The Legislature made the following budget changes:

The Legislature approved the following intent language:

The Legislature intends that the \$2 million increase from the Sovereign Lands Management restricted account be used for pre-suppression projects. The Legislature further intends that the Watershed Program manager provide a progress report on these projects to the Natural Resources, Agriculture, and Environmental Quality Appropriations Subcommittee by November 2014. (H.B. 2, Item 116)

Forestry, Fire, and State Lands

The Division of Forestry, Fire, and State Lands manages Utah's sovereign lands and provides forestry conservation and fire control activities on non-federal forest, range, and watershed lands. Although there are no state forests, approximately 30 percent of Utah is non-federal land, leaving a sizeable area on which the division administers the state's forestry laws. A twelve member advisory council provides guidance to the division.

The Legislature approved the following intent language:

The Legislature intends that the appropriation for catastrophic fires be used for on-the-ground projects, not to be used for education, in FY 2015 and report to the Natural Resources, Agriculture, and Environment Interim Subcommittee by November 30, 2014. (H.B. 2, Item 117)

The Legislature intends that the agencies that will be housed in the new Cedar City Regional Administration building pay their rents directly to the Sovereign Lands Management Restricted Account from which the \$2,950,000 has been borrowed until the debt is paid off. (H.B. 2, Item 117)

SUBCOMMITTEE OVERVIEW

The Public Education (PED) Appropriations Subcommittee reviews and approves budget programs that support the operation of Utah’s public schools. Local Education Agencies (LEAs) oversee the direct operation and maintenance of the public schools and include 41 school districts and approximately 100 charter schools. The subcommittee also examines funding for agencies that provide statewide administration and support for the public education system.

The total FY 2015 appropriation for public education is approximately \$4.0 billion, an increase of nearly \$134.9 million over the FY 2014 Revised appropriation. Of the total amount, approximately \$2.8 billion comes from the General, Education, and Uniform School funds, representing an increase of \$97.0 million over the FY 2014 Revised appropriation.

In terms of percentage change, the FY 2015 appropriation is approximately 3.5 percent above the FY 2014 Revised appropriation. The FY 2015 State fund appropriation is about 3.6 percent above the FY 2014 Revised appropriation.

- **STUDENT ENROLLMENT** – Utah’s public schools enrolled 612,551 students in fall 2013 (FY 2014). Projections indicate that an additional 10,261

students will enroll in fall 2014 (FY 2015), an increase of 1.7 percent.

- **SCHOOL PERSONNEL¹** – In FY 2013, LEAs employed 53,782 FTE employees in the following categories:
 - Classroom teachers -- 26,610;
 - Instructional and student support coordinators, supervisors, guidance counselors, librarians/media specialists, etc. -- 3,104;
 - LEA and school-level administrators -- 1,763; and
 - School level support staff, paraprofessionals, aides, transportation personnel, food service, school nurses, etc. -- 22,305.

These numbers don’t include State-level FTEs. State FTE counts, as well as appropriations detail for all public education entities under the jurisdiction of the subcommittee, can be found in the budget detail tables following this summary.

MINIMUM SCHOOL PROGRAM (MSP)

Categorical programs within the MSP determine the cost and provide for the equitable distribution of State revenues. As an equalization program, the MSP adjusts State funding for LEAs to partially balance differences in local property tax collections. As outlined in statute, LEAs receive State funding based on program qualification requirements.

The Weighted Pupil Unit (WPU) is the primary method used to determine program costs and distribute appropriated funding to LEAs. The WPU forms the foundation for each program in the Basic School Program. Generally, the WPU represents one pupil in Average Daily Membership (ADM). LEAs generate WPUs based on qualifications outlined in statute for each program. For example, students enrolled in kindergarten generate .55 of a WPU,

¹ FTE Data Source: 2012-13 Annual Report of the State Superintendent of Public Instruction, Utah State Office of Education.

whereas students enrolled in a Special Education program may generate more than one WPU.

The MSP is divided into three main programs with several categorical programs within each: (1) Basic School Program (WPU programs), (2) Related to Basic School Program, and (3) Voted & Board Leeway Programs. In FY 2015, appropriations to the MSP total nearly \$3.4 billion, of which approximately \$2.7 billion comes from State General, Education, and Uniform School Fund revenue sources.

Approximately 80 percent of MSP revenue comes from State sources, with the other 20 percent – about \$652.1 million – generated through local school district property taxes.

BUDGET CHANGES

FY 2014 and FY 2015 funding levels for each categorical program in the MSP can be found in the table titled “Minimum School Program & School Building Program – Budget Detail Table.”

Major funding and policy initiatives enacted by the Legislature during the 2014 General Session included:

- Enrollment Growth -- Provided a total of \$61.2 million to increase funding in certain programs for impacts related to student enrollment growth. This amount includes approximately \$58.4 million ongoing and \$2.8 million one-time supplemental funding from State revenue sources. Changes in local revenues supporting the Basic School Program, Voted Local Levy Program, and the Board Local Levy Program bring total funding changes for enrollment growth to approximately \$90 million. The following bullets detail enrollment growth changes in FY 2014 and FY 2015:
 - Basic School Program -- \$38.9 million State and \$2.6 million local funds, to support the additional 14,547 WPUs estimated in fall 2014;
 - Related to Basic School Program -- \$19.6 million ongoing and \$2.8 million one-time supplemental to support growth in the following programs:
 - Pupil Transportation -- \$1.2 million;
 - Concurrent Enrollment -- \$151,200;
 - Charter School Local Replacement -- \$13.5 million;
 - Charter School Administrative Costs -- \$965,100;
 - Educator Salary Adjustments -- \$2.8 million Supplemental and \$2.8 million ongoing;
 - Enhancement for At-Risk Students -- \$397,500;
 - Youth-in-Custody -- \$324,700;
 - Adult Education -- \$159,500; and,
 - Enhancement for Accelerated Students -- \$70,500.
- Voted & Board Local Levy Programs -- (\$23.1 million) due to revised local revenue estimating methodologies implemented prior to the 2014 General Session, detailed below. Impacts associated with increased WPUs in the Basic School Program and the statutory increase in the State Guarantee Rate, detailed below, are funded within this re-estimate. Local revenues supporting the program are projected to increase by more than \$49.8 million.
- Weighted Pupil Units -- Funded a total of 817,276 WPUs in FY 2015, an increase of 14,547 WPUs over FY 2014.
- WPU Value -- Increased the Primary WPU Value used for most programs from \$2,899 to \$2,972. Increased the Add-on WPU Value, which is used for the Special Education Add-on and Career & Technical Education Add-on programs, from \$2,659 to \$2,726. Increased both WPU Values by approximately 2.5 percent at a total cost of \$62.5 million in the following programs:
 - Basic School Program -- \$59.1 million for all WPU programs; and
 - Related to Basic School Program -- \$3.4 million to support the following programs:
 - Pupil Transportation -- \$1.8 million;
 - Enhancement for At-Risk Students -- \$594,600;
 - Youth-in-Custody -- \$485,600;
 - Adult Education -- \$238,500;

- Enhancement for Accelerated Students -- \$105,500; and
 - Concurrent Enrollment -- \$226,100.
- Basic Rate -- Estimated the Basic Property Tax Rate (Basic Levy) at 0.001477 for FY 2015 – compared to 0.001535 in FY 2014. Estimated local property tax revenue from this rate is \$296.7 million, an increase of \$2.6 million. The State Tax Commission sets the final tax rate to generate the revenue amount appropriated by the Legislature.
- Voted & Board Local Levy State Guarantee -- The enrollment growth funding estimate includes a statutory increase in the State guarantee rate for FY 2015. This increase brings the rate to \$27.92 per WPU in qualifying school districts – up from \$27.36.
- Local Revenue Estimates -- Significant year-end balances have remained in the Basic School Program and the Voted & Board Local Levy Programs in the past several fiscal years.
 - These balances are largely the result of underestimating local revenue contributions towards program costs;
 - Beginning FY 2015, the methodology used to estimate local revenues was changed to include various contributing factors of total property tax collections in school districts;
 - Changes in methodology increase the risk of error and potential shortfall, particularly in the first couple of years.
- MSP Nonlapsing Balances -- Transferred up to \$58.9 million in nonlapsing balances to the Education Fund at the close of FY 2015. Waiting until the end of FY 2015 allows the State Board of Education to close both FY 2014 and FY 2015 before the transfer occurs. Transfers include:
 - Basic School Program -- \$54.5 million; and
 - Related to Basic School Program -- \$4.4 million.
 - The Legislature transferred \$23.0 million in nonlapsing balances from the Voted & Board Local Levy Programs to the Basic School Program in FY 2014.

Other adjustments include:

- Dual Language Immersion -- \$300,000 to expand programs in additional elementary schools in FY 2015;
- School LAND Trust Program -- \$8.9 million from increased revenue in the Interest and Dividends account, for a total appropriation of nearly \$37.6 million;
- Teacher Supplies & Materials -- \$5.0 million one-time to reimburse classroom teachers for out-of-pocket expenditures on classroom supplies and materials;
- Beverley Taylor Sorenson Elementary Arts Learning Program -- \$2.0 million ongoing and \$3.0 million one-time to continue supporting subject-area art specialists in participating elementary schools in FY 2015; and
- **S.B. 140, “Advanced Placement Test Funding”** -- \$100,000 one-time to the Enhancement for Accelerated Students program to pay AP test fees for eligible low-income students.

The Legislature included the following intent language and un-codified statutory language governing certain MSP programs:

Outlined the distribution of funds appropriated to teachers for reimbursement of out-of-pocket expenditures on classroom supplies and materials. (S.B. 2, Item 2)

The Legislature intends that enrollment in charter schools in the 2015-16 school year may increase up to 8,450 students over the projected enrollment of 66,578 in the 2014-15 school year. (S.B. 2, Item 2)

The Legislature intends that up to \$4,101,900 of the appropriation for the Charter School Local Replacement program and up to \$247,100 of the appropriation for the Charter School Administration program be used to fund program related costs for the estimated 2,471 students that may enroll in charter schools approved by the State Board of Education under the provisions outlined in Section 53A-1a-501.9 during the 2014-15 school year. The Legislature further intends that the enrollment in charter schools during the 2014-15 school year may

exceed the number authorized in the Laws of Utah 2013, Chapter 313, Section 5, Item 2, by 2,001 students for a total estimated enrollment of 66,578 students. (S.B. 2, Item 2)

The Legislature intends that the appropriation for the Flexible Allocation – WPU Distribution program, as provided in H.B. 1, Public Education Base Budget Amendments, be distributed to school districts and charter schools on the basis of the number of weighted pupil units in a school district or charter school compared to the total number of weighted pupil units and that the State Board of Education provide for the reporting of school district and charter school expenditures of the program money. (S.B. 2, Item 2)

The Legislature intends that the Division of Finance transfer \$54,504,000 or the unreserved, unencumbered balance in the Basic School Program, whichever is less, from the Basic School Program to the Education Fund one-time at the close of fiscal year 2015. (S.B. 2, Item 17)

SCHOOL BUILDING PROGRAM (SBP)

The SBP includes two programs: (1) Capital Outlay Foundation Program and (2) Capital Outlay Enrollment Growth Program. The programs assist qualifying school districts on a formula basis with the construction, renovation, or debt service of school facilities. The program is funded entirely from the Education Fund and FY 2015 appropriations total nearly \$14.5 million. Capital construction in the LEAs is primarily funded through local property tax revenues.

The Legislature did not make funding or programmatic changes to the School Building Program during the 2014 General Session.

PUBLIC EDUCATION AGENCIES

Public education agencies include the Utah State Office of Education (USOE) and the Utah Schools for the Deaf and the Blind (USDB). The USOE contains its own line items, as well as those of the following programs: Child Nutrition Programs (CNP), Educator Licensing, State Charter School Board (SCSB), Fine

Arts and Science Outreach Programs, and Education Contracts.

Date Modified: 5/5/2014
5/7/2014 11:10**Notes:**

- The Legislature transferred up to \$58.9 million in nonlapsing balances from various MSP programs to the Education Fund at the end of FY 2015. This allows the State Board of Education to close both FY 2014 and FY 2015 budgets before the transfer occurs.
- Includes \$100,000 one-time for Advanced Placement Test Funding appropriated in S.B. 140.
- The Legislature transferred \$23 million in estimated nonlapsing balances at the end of FY 2014 from the Voted & Board Local Levy programs to the Basic School Program. Statutory provisions in 53A-17a-105 allow the State Board of Education to transfer funding from the Basic School Program to the Voted & Board Local Levy Programs to fund the state guarantee rate as appropriated should this estimated nonlapsing balance not materialize.

SUBCOMMITTEE OVERVIEW

The Social Services Appropriations Subcommittee reviews and approves budgets for the following agencies:

- Department of Health;
- Department of Human Services;
- Department of Workforce Services; and
- Utah State Office of Rehabilitation.

General and Education Fund appropriations for this subcommittee decreased 0.6 percent between the FY 2013 Actual budget and the FY 2014 Revised budget, and increased 10.7 percent between the FY 2014 Revised budget and the FY 2015 Appropriated budget – largely due to Medicaid-related costs.

The Legislature approved the following intent language for Social Services:

The Legislature intends that the Departments of Health, Human Services, Workforce Services, and the Utah State Office of Rehabilitation prepare proposed performance measures for all new state funding or TANF federal funds for building blocks and give this information to the Office of the Legislative Fiscal Analyst by June 30, 2014. The Departments of Health, Human Services, Workforce Services, and the Utah State Office of Rehabilitation shall provide its first report on its performance measures to the Office of the Legislative Fiscal Analyst by October 31, 2014. The Office of the Legislative Fiscal Analyst shall give this information to the legislative staff of the Health

and Human Services Interim Committee. If the new money will go to a pass through entity, the Departments of Health, Human Services, Workforce Services, and the Utah State Office of Rehabilitation shall work with each pass through entity to provide the same performance measure information. (S.B. 3, Items 67, 73, 76, 79 and H.B. 2, Items 67, 74, 78, 84)

The Legislature intends that the Departments of Workforce Services, Health, Human Services, Technology Services, and the Utah State Office of Rehabilitation provide a report regarding all current background checks of individuals and possible efficiencies for consolidation. The Legislature intends that agencies provide a report to the Office of the Legislative Fiscal Analyst by September 1, 2014. The report shall include the following regarding each background check program: (1) name and purpose of the program, (2) expenditures and staffing for the last three years, (3) types of problems the background check is looking for, (4) the databases searched, and (5) technology used. The report should provide recommendations where different background check systems might be combined. (H.B. 2, Items 67, 74, 78, and 84)

Federal funds appropriated for after school programs to address intergenerational poverty (\$2,179,200), child care competitive rate subsidy (\$8,193,200), child care for 60 days during temporary unemployment (\$566,600), refugee services (\$1,500,000), Hyrum Community Resource Center (\$150,000), Garland Community Resource Center (\$104,000), Weber County Youth Impact Program (\$50,000), Children's Center (\$1,000,000), Marriage Commission (\$300,000), Mental Health Early Intervention for Children/Youth (\$1,500,000), Supported Employment for Individuals with Disabilities (\$1,000,000), Family Resource Facilitator Higher Education Navigator Program (\$750,000) [are] dependent upon the availability of and qualification for Temporary Assistance for Needy Families federal funds. (H.B. 2, Items 75, 78, 79, 80, 82)

The Legislature made the following budget changes:

- Change Medicaid Eligibility Cards from Paper to Plastic -- (\$480,000) ongoing General Fund, (\$480,000) ongoing federal funds; \$208,000 General Fund one-time, \$208,000 federal funds one-time: Ongoing savings are from sending a one-time plastic eligibility card for Medicaid rather than a monthly paper card. One-time start-up costs are for mailing a new card to all enrollees and programming changes.

HEALTH

The mission of the Utah Department of Health is to protect the public's health by preventing avoidable illness, injury, disability, and premature death; assuring access to affordable, quality health care; and promoting healthy lifestyles.

The Utah Department of Health lists the following objectives as three of its major goals:

1. To be among the healthiest of all State populations by promoting healthy communities, healthy behaviors, and an improved health care system.
2. Assure that health care reform improves health and reduces health care costs, by focusing on prevention as well as improving access to care, quality of care, and cost of care.
3. Transform Medicaid to improve health outcomes and reduce cost by aligning provider payment incentives with the desired outcomes of improved health and reduced costs, while preserving access to care.

The State utilizes local health departments to administer many of the services required by State law. Twelve local health departments cover all areas of the State and provide local public health services.

The Legislature made the following budget changes:

- Increased Nursing Home Medicaid Rates -- \$2.0 million General Fund one-time; \$4,405,800 federal funds one-time: Increases reimbursement rates 3.6 percent for nursing homes and uses \$110,600 of General Fund to

keep hospice care costs neutral for the State; and

- Medicaid Caseload -- (\$48.5 million) one-time: Reduction due to lower than expected costs in FY 2013 and higher collections by the Medicaid Fraud Control Unit.

EXECUTIVE DIRECTOR'S OPERATIONS

The Executive Director's Operations include those functions of the Department of Health that provide overall direction of policy, management, and administrative support to the divisions, offices, and department programs. This organizational line item also includes the Center for Health Data and Informatics and the Office of Internal Audit.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Executive Director's Operations line item: (1) conduct risk assessments for each information system in operation (Target = 123 information systems), (2) 95% of births occurring in a hospital are entered accurately by hospital staff into the electronic birth registration system (Target = 10 calendar days or less), and (3) percentage of all deaths registered using the electronic death registration system (Target = 75% or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 20)

The Legislature intends that the Inspector General of Medicaid Services pay the full state cost of the one attorney FTE that it is using at the Department of Health. (H.B. 2, Item 67)

The Legislature made the following budget change:

- Office of Inspector General to Pay for Attorney - \$60,000 one-time other funds: Requires the Inspector General of Medicaid Services to pay full State costs of the attorney FTE it uses at the Department of Health.

FAMILY HEALTH AND PREPAREDNESS

The Division of Family Health and Preparedness assures and improves the quality of the Utah health care system, with an emphasis on care delivered to the most vulnerable populations. This function is fulfilled through the examination, analysis, and regulatory actions to improve service availability, accessibility, safety, continuity, quality, and cost.

The division directs the regulation and oversight of the health care industry. Division-wide improvement strategies include training, certification, licensing, and inspection.

The division also strives to assure that women, infants, children, and their families have access to quality health care. These health care services are available to all citizens of the State according to their ability to pay. Primary clients are low income women, infants, and children who have special health care needs.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Family Health and Preparedness line item: (1) The percent of children who demonstrated improvement in social-emotional skills, including social relationships (Goal = 70% or more), (2) The percent of children who demonstrated improvement in their rate of growth in acquisition and use of knowledge and skills, including early language/communication and early literacy (Goal = 75% or more), (3) The percent of children who demonstrated improvement in their rate of growth in the use of appropriate behaviors to meet their needs (Goal = 75% or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 21)

The Legislature intends that the Utah State Office of Education and the Department of Health develop quantifiable performance measures associated with activities of the "CPR and AED Instruction" program,

and report its findings to the Social Services Appropriations Subcommittee and Public Education Appropriations Subcommittee before the November 2015 Interim meeting. (H.B. 2, Item 68)

The Legislature made the following budget changes:

- Baby Watch Early Intervention Caseload -- \$220,000 one-time: For FY 2014 ongoing caseload; this provides one year of funding for FY 2015;
- **S.B. 75, "Primary Care Grants Amendments"** -- \$2.0 million one-time: Funds about 40 grants to not-for-profit agencies to provide primary care for about 40,000 medically underserved individuals; and
- Rural Health Clinic Escalante -- \$300,000 one-time: Builds a new health clinic in Escalante.

DISEASE CONTROL AND PREVENTION

The mission of the Division of Disease Control and Prevention is to promote health and reduce the leading causes of death, disease, and disability in Utah. The Division of Disease Control and Prevention works with and for other State, local, and private entities to:

- Identify and epidemiologically characterize communicable diseases, human health effects of environmental health hazards, occupational risks of public health concern, injuries, chronic diseases, and risk factors for chronic diseases.
- Develop and coordinate public health reporting systems, control measures and prevention activities.
- Conduct environmental sanitation policy.
- Provide comprehensive public health laboratory testing and technical consultation.
- Operate a statewide medical examiner system.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Disease Control and Prevention line item: (1) Gonorrhea cases per 100,000 population (Target = 18.9 people or less), (2) Percentage of

Adults Who Are Current Smokers (Target = 9%), and (3) Percentage of Toxicology Cases Completed within 14 day Goal (Target = 100%) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 22)

The Legislature made the following budget changes:

- **H.B. 291, “State Laboratory Drug Testing Account Amendments”** -- \$228,300 General Fund Restricted: Additional staff to bring testing turnaround time from 23.5 to 14 days; and
- **S.B. 109, “Radon Awareness Campaign”** -- \$25,000 one-time: Educates the public on radon and its effects through a statewide electronic awareness campaign.

LOCAL HEALTH DEPARTMENTS

Twelve local health departments (LHDs) cover all areas of the State and provide local public health services. There are six single-county LHDs with another six LHDs covering the other 23 Utah counties. The State utilizes the local health departments to administer many of the services required by State law. While this line item is for the General Fund block grant funding only, the Utah Department of Health contracts with the LHDs for over 45 other services from a variety of funding sources. The funding for these contracts is appropriated to and included in the various line items of the Department. Additionally, LHDs contract with the Department of Environmental Quality to provide services.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Local Health Departments line item: (1) Number of local health departments that maintain a board of health that annually adopts a budget, appoints a local health officer (LHO), conducts an annual performance review for the LHO, and reports to county commissioners on health issues (Target = 12 or 100%), (2) Number of local health departments that provide communicable

disease epidemiology and control services including disease reporting, response to outbreaks, and measures to control tuberculosis (Target = 12 or 100%), and (3) Number of local health departments that maintain a program of environmental sanitation which provides oversight of restaurants food safety, swimming pools, and the indoor clean air act (Target = 12 or 100%) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 23)

MEDICAID AND HEALTH FINANCING

The Division of Medicaid and Health Financing is the administrative agency for Utah's Medical Assistance Programs:

- Medicaid;
- Children's Health Insurance Program;
- Utah's Premium Partnership for Health Insurance; and
- Primary Care Network.

The federal government requires that all Medicaid funding must flow through the Department of Health via a memorandum of understanding for all functions performed by other entities whether State, non-profit, for profit or local government.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Medicaid and Health Financing line item: (1) average decision time on pharmacy prior authorizations (Target = 24 hours or less), (2) percent of clean claims adjudicated within 30 days of submission (Target = 98%), and (3) total count of Medicaid and CHIP clients educated on proper benefit use and plan selection (Target = 90,000 or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 24)

The Legislature made the following budget changes:

- One-time Windfall from Federal Reconciliation -- (\$715,000) General Fund and \$715,000 federal funds: The federal government provided an

unexpected payment to Medicaid from prior year adjustments;

- Telehealth Equipment for Medicaid -- \$1.0 million General Fund and \$1.0 million federal funds; and
- Utah Telehealth Services -- \$35,000 General Fund and \$35,000 federal funds: One FTE to support efforts to implement and maintain telehealth services in Medicaid.

MEDICAID SANCTIONS

Medicaid Sanctions funds come from sanctions imposed under Section 1919 of Title XIX of the federal Social Security Act. These funds go into the General Fund as non-lapsing dedicated credits for the Department of Health to use in accordance with the requirement of Section 1919. Allowable uses for the funds are:

- Relocation of residents to other facilities;
- Operation of a facility pending correction of deficiencies or closure, and
- Resident reimbursement for personal funds lost unless approval for other expenditures is obtained from the federal government.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on how expenditures from the Medicaid Sanctions line item met federal requirements which constrain its use by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 25)

CHILDREN'S HEALTH INSURANCE PROGRAM

The Children's Health Insurance Program (CHIP) provides health insurance coverage to uninsured children up to age 19 living in families whose income is less than 200 percent of the Federal Poverty Level (FPL). Additionally, eligible children must: (1) not have access to affordable health insurance, (2) not have voluntarily terminated private health insurance within the last 90 days, and (3) be U.S. citizens or legal residents. There is no asset test for CHIP

eligibility. For more information please visit <http://health.utah.gov/chip/howtoapply.htm>.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Children's Health Insurance Program line item: (1) percentage of children (less than 15 months old) that received at least six or more well-child visits (Target = 52% or more), (2) percentage of members (12 - 21 years of age) who had at least one comprehensive well-care visit (Target = 39% or more), and (3) percentage of children 5-11 years of age with persistent asthma who were appropriately prescribed medication (Target = 94% or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 26)

The Legislature made the following budget change:

- CHIP Caseload Savings -- (\$500,000) General Fund and (\$1,953,700) federal funds; (\$4.0 million) General Fund one-time and (\$15,147,900) federal funds one-time: Savings are from lower than anticipated costs and caseloads.

MEDICAID MANDATORY SERVICES

Medicaid is a joint federal/state entitlement service consisting of three programs that provide health care to selected low-income populations: (1) a health insurance program for low-income parents (mostly mothers) and children; (2) a long-term care program for the elderly; and (3) a services program to people with disabilities. Overall, Medicaid is an "optional" program, one that a state can elect to offer; however, if a state offers the program, it must abide by strict federal regulations. It also becomes an entitlement program for qualified individuals; that is, anyone who meets specific eligibility criteria is "entitled" to Medicaid services.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Medicaid Mandatory Services line item: (1) percent of adults age 45-64 with ambulatory or preventive care visits (Target = 88% or more), (2) percent of deliveries that had a post partum visit between 21 and 56 days after delivery (Target = 60% or more), and (3) percent of customers satisfied with their managed care plan (Target = 85% or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 27)

The Legislature intends that the Department of Health report quarterly to the Office of the Legislative Fiscal Analyst on the status of replacing the Medicaid Management Information System replacement beginning September 30, 2014. The reports should include, where applicable, the responses to any requests for proposals. (H.B. 2, Item 72)

The Legislature intends that the \$1,500,000 in Beginning Nonlapsing provided to the Department of Health is dependent upon up to \$1,500,000 of savings above \$3,030,000 from savings from higher federal match rate for certain Medicaid eligibility systems maintenance and operations in the Department of Workforce Services in FY 2014. The use of any nonlapsing funds is limited to replacing the Medicaid Management Information System in the Department of Health in FY 2015. (H.B. 2, Item 72)

The Legislature intends that the Medicaid Accountable Care Organizations receive a scheduled two percent increase effective January 1, 2015 consistent with the intent of S.B. 180, 2011 General Session. (H.B. 3, Item 94)

The Legislature made the following budget changes:

- Medicaid Management Information System Replacement -- \$2.0 million General Fund one-time and \$33.0 million federal funds one-time: Another phase in replacement of the Medicaid Management Information System; and

- Tax on Medicaid and CHIP Providers from Federal Health Care Reform -- \$2,032,900 General Fund one-time and \$4,859,300 federal funds one-time.

MEDICAID OPTIONAL SERVICES

The federal Centers for Medicare and Medicaid Services (CMS) designates which services in Medicaid are optional. An optional service means that a state does not have to provide the service for most Medicaid clients. These 38 optional services are eligible for the State's federal matching funds: pharmacy, dental, ambulatory surgery, chiropractic, podiatry, physical therapy, vision care, substance abuse treatment, hearing, speech, dialysis clinics, surgical centers, alcohol and drug clinics, intermediate care facilities for individuals with intellectual disabilities, personal care, hospice, and private duty nursing. Some of these services may be mandatory for certain populations or in certain settings.

The Legislature approved the following intent language:

The Legislature intends that the Department of Health report on the following performance measures for the Medicaid Optional Services line item: (1) annual state general funds saved through preferred drug list (Target = \$8.5 million general fund or more), (2) count of new choices waiver clients coming out of nursing homes into community based care (Target = 390 or more), and (3) emergency dental program savings (Target = \$250,000 General Fund savings or more) by January 1, 2015 to the Social Services Appropriations Subcommittee. (S.B. 8, Item 28)

The Legislature intends that up to 5% be allowed for contracted plan administration (for the building block entitled Dental Provider Rates). (H.B. 2, Item 73)

SUBCOMMITTEE OVERVIEW

The Retirement and Independent Entities Appropriations Subcommittee oversees the operating budgets of the Career Service Review Office (CSRO), the Department of Human Resource Management (DHRM), and the Utah Education Network (UEN).

The subcommittee also considers issues related to the Utah Retirement System (URS), the Public Employees’ Health Program (PEHP), and other independent State entities.

Total FY 2015 General/Education Fund appropriations for these agencies increased 16.4 percent from FY 2014 Revised. Total appropriations increased by 6.5 percent.

CAREER SERVICE REVIEW OFFICE

The Career Service Review Office manages the State’s grievance and appeals process. CSRO employs two FTEs and reduced its FY 2015 General Fund appropriation by 9.3 percent to \$261,900.

Due to fluctuations in the frequency and complexity of hearings, the budget for CSRO varies from year to year and the office has lapsed funds in four of the past five years. In order to set a budget that more closely resembles the average, the subcommittee reduced ongoing appropriations but increased the nonlapsing authority to cover the fluctuations.

DEPARTMENT OF HUMAN RESOURCE MANAGEMENT

The Department of Human Resource Management is the central human resource office for the State’s

workforce. DHRM is responsible for recruitment, training, classification, and the compensation system. The department has an appropriated component for its administration and an internal service component for field operations. The appropriated component employs 14 FTEs and has an FY 2015 budget of \$2,806,000. The ISF component employs 142 FTEs and estimates dedicated credit revenue of \$12,089,200 for FY 2015.

During the 2014 General Session, legislators approved the following major funding items for DHRM:

- Attorney General Expense Shift – (\$96,500): The entire AG expense will now be captured through the ISF. This shift allows the ISF to reduce State fund impact of this program by \$14,100 while increasing revenue from other sources.
- Operating Efficiencies – (\$382,300) ongoing; (\$500,000) one-time: Due to continual improved operating efficiencies, DHRM has been able to reduce their base budget by 12.4 percent and return nearly \$1.0 million in balances to the General Fund.
- IT Projects for HR – \$250,000 one-time: This funding is to be used to maintain and update the Human Resource Enterprise System (HRE). The Legislature made the appropriation for FY 2014 and passed intent language to allow these funds to not lapse.

The 2014 Legislature approved the following bill impacting DHRM:

H.B. 334, “Teacher Salary Supplement Program Amendments,” replaced DHRM with the State Board of Education as the administrator of the Teacher Salary Supplement Program. This resulted in a further reduction in the DHRM budget of \$133,600.

UTAH EDUCATION NETWORK

Utah Education Network (UEN) delivers education statewide through the use of technology, including public television station KUEN-9, Interactive Video Conferencing (IVC), and internet connections for schools. UEN leverages State appropriations with other grants and E-rate discounts to perform its mission.

During the 2014 General Session, legislators approved the following major funding items for UEN:

- Capital Equipment Replacement – \$3.0 million one-time to update critical network equipment;
- Elementary Connectivity – \$284,200 to equalize connectivity charges for Utah elementary schools; and
- Elementary Connectivity Growth – \$150,000 for the growth component of elementary connectivity. Growth is mainly attributed to increased enrollment, increased demand for connectivity with the number of devices in use, and increased software licensure costs.

The 2014 Legislature approved the following bills:

S.B. 34, “Statewide Data Alliance and Utah Futures,” consolidates Utah Futures and statewide data systems from public education, higher education, and workforce data. In addition to appropriations to public education and higher education, the Legislature appropriated \$345,000 ongoing and \$300,000 one-time to UEN.

H.B. 92, “Utah Education and Telehealth Network,” moves the Utah Telehealth Network and its funding of \$459,600 from the University of Utah to UEN.

H.B. 155, “Utah Communication Agency Network and Utah 911 Committee Amendments,” merges the Utah Communications Agency Network, an independent State agency, and the Utah 911 Committee into an independent State agency named the Utah Communications Authority. The bill transfers inventory, assets, and FTEs from current State agencies to the newly created Utah Communications Authority. While the Utah Communications Authority is an independent State agency, the bill requires annual reports to be submitted to the Executive Offices and Criminal Justice Appropriations Subcommittee.

COMMITTEE OVERVIEW

The Executive Appropriations Committee (EAC) organizes and implements the appropriations process for subcommittees of the Joint Appropriations Committee (which includes all legislators). While most state agencies report to an appropriations subcommittee, these state agencies report directly to the Executive Appropriations Committee:

- Utah National Guard;
- Veterans’ and Military Affairs;
- Capitol Preservation Board; and
- Legislature.
